**AMUSEMENTS.**  
A musical comedy that can play a season of forty-four weeks in the largest cities, including New York, Boston and Philadelphia, and put in an entire summer in Chicago, must possess much merit, and that is the record of "The Flower of the Ranch," which is to be the attraction at the Tabb Opera House, Thursday, March 2.  
As its title might suggest, the play is of the West, and is said to tell a stirring story of the latter day land of romance. The characters include Indians, cowboys, Mexicans, ranchmen and types usually found in the section of the country selected by the author as the locale of his play. The book, lyrics and music are all by Joseph E. Howard, whose contributions to the music of the stage have been well worth while. The production numbers some fifty people. It requires two special cars to carry this company.

**Treating Bruises.**  
In the treatment of contusions with extensive discoloration of the skin, if olive oil be applied freely without rubbing the discoloration will quickly disappear. Absorbent cotton may be soaked in the oil and applied. If the skin is broken a little boric acid should first be applied over the abrasion. A black eye thus treated can be rendered normal in a few hours, especially if the oil be applied warm.

**Scheme to Sell Photos.**  
A man in the photograph business has a good scheme for selling his pictures. Every bright day he makes his headquarters at Riverside drive and Ninety-eighth street, where he snaps passing motorists. He takes a record of the license number, hunts up the owner, and if he was not in the auto party finds out who was. The sale of his pictures is an easy matter.—New York Sun.
